

MOBILE PRINTING AND SCANNING WITH KYOCERA

INCREASE EFFICIENCY THROUGH MOBILE PRINTING MADE EASIER

Mobile and Bring Your Own Device (BYOD) workforces are increasingly common in modern organisations. However, how do IT departments support this workforce when it comes to printing? With KYOCERA Mobile Print and KYOCERA Print Centre, IT departments can take a step back.

As long as the device is connected to the network and has either of the KYOCERA Mobile Print apps installed, the user can print and scan documents as much as they need. Mobile printing with KYOCERA covers Apple, Android and Microsoft operating systems, enabling IT departments to deliver printing quickly and easily.

BUSINESS CHALLENGES

- > I have a large mobile workforce and setting them up to print when they visit the office is problematic – **is there an easy way to do this?**
- > Our company has a Bring Your Own Device policy, but from an IT perspective this is problematic for network printing – **how can I manage this easily?**

YOUR ADVANTAGES WITH MOBILE PRINT

- > **Reduces IT infrastructure:** Little to no IT involvement required, download the app and print.
- > **No drivers required:** Only a tablet or mobile connected to the network required.

KYOCERA HYPAS™ TAILOR YOUR MFP TO YOUR BUSINESS

HyPAS™

HyPAS™ is KYOCERA's platform for developing custom MFP business applications. These can run embedded inside the device and extend the device functionality according to your needs. The MFP applications can connect to external server applications and integrate the MFP into your company workflow. With HyPAS™, KYOCERA meets your individual requirements and provides you with the right solutions for your business.

FEATURES & SPECIFICATIONS

Introduce printing from mobiles, tablets and laptops to your mobile and BYOD workforce quickly and easily. The KYOCERA Mobile Printing suite covers operating systems from Apple, Android and Microsoft.

Printing: Print photos and documents in PDF, JPG, PNG, TCT and HTML formats.

Job accounting: KYOCERA Mobile Print can be used in conjunction with job accounting to track mobile print jobs.

Scanning: Scan documents on a compatible MFP and save them directly to a mobile device.

Templates: KYOCERA Print Centre provides a library of pre-determined templates and the ability to store custom templates for printing.

E-mail: E-mail documents stored within the app to other recipients.
